

To Whom It May Concern

Helsinki March 27, 2020

Dear friends, partners, participants and supporters,

The Nordic FUTURE event next week is in fact cancelled due to Global coronavirus epidemic (Force Major) because it is so near the dates.

It will be moved to a later date in the fall. We will come back on that.

The risks with the escalating coronavirus epidemic is high. Given the fact that most participants were flying in from around the world and many from Asia. We are monitoring and following the global institutes recommendations like WHO - World Health Organisation.

We apologise for the inconvenience but hoping and asking for your support in this decision. We believe it is the most responsible thing to do at this moment.

The events taking place under the Helsinki Nordic Impact Week you will find updates and information about [here](#)

For any questions, concerns, ideas, and continued planning I am of course available 24/7 to respond and talk to you all! +358 40 376 85 15
